

Exhibit at the Automotive Engineering Exposition 2016 Nagoya

June 22, 2016 – TOKAI RIKA CO., LTD. (Head Office: Oguchi-cho, Niwa-gun, Aichi, Japan. Kenji Miura, President) will present an exhibit at the Automotive Engineering Exposition 2016 Nagoya held at Portmesse Nagoya from Wednesday, June 29 to Friday, July 1 (organizer: Society of Automotive Engineers of Japan).

Under the theme of *Connecting People and Cars Gently*, Tokai Rika will showcase its latest products and technologies embodying user-friendliness, intuitiveness, and comfort.

More specifically, videos and/or actual products presenting our (1) seamless electrostatic touch switch, (2) motion door opener, (3) wearable accessories with smart key link, (4) camera monitor system and (5) shift-by-wire selector will be featured. The exhibit will also include the future cockpit equipped with input device adapted to upcoming automated driving technology in mind, which was favorably received at the 2015 Tokyo Motor Show.

Through the development of products that link people and cars, Tokai Rika will keep moving forward as a company in touch with tomorrow's automobile society.
