

TOKAI RIKA Opens New Cloud Development Center near Nagoya Station

TOKAI RIKA CO., LTD. (Head Office: Oguchi-cho, Niwa-gun, Aichi, Japan, President: Hiroyoshi Ninoyu) has decided to open a new cloud business center in Nagoya, Aichi Prefecture.

As a part of our efforts to expand into new fields of business, TOKAI RIKA is working to enhance its cloud-based business operations, including those related to digital keys. This new office will be mainly involved in the development and design of systems and applications for digital keys.

Office location is important for many IT experts and the Nagoya station area, which is a hub for both people and information, should be an attractive working location for people in the cloud field. Easy access to both Tokyo and Osaka should also facilitate communication with our business partners across the IT field and help to expand the sales of our cloud business.

We are aiming to achieve sales worth 10 billion yen across a range of new business fields, and we hope that this new cloud development center will provide impetus toward this goal.
