

Supply Chain

Basic purchasing policy

Tokai Rika is developing global purchasing of parts, materials and equipment which are superior in terms of quality, cost, and delivery, on the basis of the following five principles for purchasing.

We have stipulated that we will provide fair trade opportunities, no matter what nationality or company size, and develop good and long-term cooperative relationships with our suppliers. We carry out our activities in accordance with this.

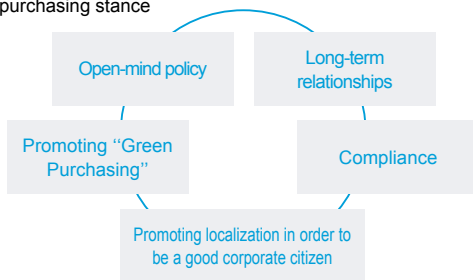

Upon selecting suppliers, we periodically review order policy on the basis of a comprehensive evaluation for each fiscal year.

In addition, we have formulated and announced the "Declaration of Partnership Building" with the aim of increasing added value to our entire supply chain through mutually-beneficial nature with our business partners and new collaboration.

Declaration of Partnership Building logo

Basic purchasing stance

Strengthening cooperation with suppliers

Every April, we hold a supplier meeting for our major suppliers. Through explanations of the business environment, group policy, and basic purchasing policy, we share and collaborate on various activities and goals, such as safety and disaster prevention, quality assurance, stable supply, competitiveness, and compliance. We also praise and present awards to suppliers who have achieved outstanding results with regard to quality, cost, stable supply, and so on.

FY 2021 Purchasing Policy explanation

Social Contribution Activities

Social contribution activities policy

With regard to our policy for activities in relation to social contribution, firstly, among our initiatives as a business organization we conduct activities that focus on four pillars: "local communities," "social welfare," "development of youth," and "environmental preservation." As another initiative, we are also committed to support for and awareness of various social contribution activities and volunteer activities conducted by employees.

Policies for activities in relation to social contribution

Planning and promotion of social contribution activities conducted by Tokai Rika as a business organization

Fields of activity

Local communities

Contributing to regional development and safe and secure town development

Social welfare

Contributing to achieving a barrier-free society

Development of youth

Contributing to the development of children, who will carry the society of the future on their shoulders

Environmental preservation

Conduct that takes into consideration a better relationship with the global environment, for the sake of the future

Support for and awareness of social participation activities and volunteer activities conducted by employees

We cooperate with blood donation at each plant every year. Amid blood shortages due to the COVID-19 crisis, we increased the number of acceptances of blood donation buses to two times (in summer and winter). (Blood donation: 751 people)

We donated UV sterilization storage to Oguchi Town, Toyokawa City, and Kiyosu City to help prevent the spread of COVID-19 in the region.

We donated some of the preserved food we have for disaster prevention to the food bank project of the Social Welfare Council in Oguchi Town, Toyota City, and Toyokawa City.
