

# Tokai Rika's exterior technology ~Five part groups contributing to users and environment~

## Value for users

④ Exterior illumination

⑤ BAMBOO+® emblem

① CMS (Camera monitoring system)

③ Active aerodynamic device

② WFO® (Wheel full ornament)

### ① Slim power-folding CMS

- Uses a super-slim power-folding actuator.

### ② WFO®

- Easier to detach for quick design changes

### ③ Active rear spoiler

- A minimal mechanical structure using a power-folding mirror actuator can fit various vehicle models.

Improved aerodynamic performance enhances safety and peace of mind for the electrification era.

### ④ Exterior illumination

- Slim illuminated emblem
- High-brightness logo lamp

### ⑤ BAMBOO+® emblem

- A unique textured surface
- Weather-resistant, even in exterior applications

The nighttime illumination provides safety, personalization, and a sense of affinity.

Creating new value for a sustainable society
